

Re: Permission Slip for Community Trips

Hello Parents and Guardians,

Our students routinely take trips into the community for a variety of experiential learning opportunities. These events will occur within 30 minutes drive of Ivymount and staff will accompany the students via Ivymount transportation.

Provided your consent on this general form, a field trip form/email would be sent home to notify you of the event and allow you to opt out of your child participating in that event, if desired. However, if you do not complete this general form, you will receive a permission slip that would require you to provide consent for each event in order for your child to participate.

Please review the form below and complete and return with your child via backpack mail. Please do not hesitate to let me know if you have any questions and many thanks for your support and partnership.
