

Re: Permission Slip for Community Events

Hello Parents and Guardians,

Our high schoolers routinely take trips into the community for a variety of purposes including but not limited to: Community Based Instructional, vocational job placements, events (e.g., college fairs), and field trips.

Most commonly, our students will be participating in Community Based Instruction or CBI as it may be shown on their student schedules. Through CBI students will be engaging in experiential learning with a focus on a variety of topics including but not limited to safety, navigation, transportation, and shopping. Students will attend these trips with a staff member and a small group of peers. These trips typically occur in close proximity to the Ivymount School to ensure that students can leave and return school within the 90 minute class period. These trips typically occur weekly and your child’s teacher will communicate regarding any materials that may be required for the trip (e.g., money).

For students who have a vocational placement offsite, our Vocational Coordinator will be in communication to provide more specific details prior to these events. Otherwise, you will receive advance notification of these other, less frequently occurring, events. Provided your consent on this general form, a field trip form/email would be sent home to notify you of the event and allow you to opt out of your child participating in that event, if desired.

Please review the form below and complete and return with your child via backpack mail.

Please do not hesitate to let me know if you have any questions and many thanks for your support and partnership.

Lauren
