

Dear Parents/Guardians,

As you know, an important part of the Post High School curriculum involves going out into the community. Community Access trips promote generalization of skills learned in the classroom and give staff the opportunity to observe the students interacting with new people and in unfamiliar settings. Some of these trips make use of Ivymount transportation, while others involve public transportation or walking. Throughout the year, staff will keep you informed about where the students are going and what goals they will be targeting on their trips. However, we ask that you sign the form below, which grants your student permission to participate in community access trips for the 2018-19 school year. Please complete and return to your student's homeroom teacher.

Please work with your student to make sure that they bring their wallet and between \$5 and \$10 **every day**. Any student who has a photo ID and/or transportation card (e.g. Metro Access card) should bring those as well.

Thank you,

Lu Merrick  
Program Director

Issie Resti  
Assistant Director
